

AYMANE AIT DADS

Research Intern | Clinical Data Analysis · Protocol Eligibility Screening · Patient Recruitment Support

Ayman.Ait-dads@eurecom.fr | +33 7 60 92 50 93 | linkedin.com/in/aymane-ait-dads | Sophia Antipolis, France

PROFESSIONAL SUMMARY

Data Science engineering student at EURECOM with hands-on experience analyzing 100,000+ records to classify performance profiles and deliver actionable recommendations directly to operational teams - directly mirroring protocol-based eligibility screening and documentation workflows central to this Research Intern role. At Orange Maroc, automated feature engineering and model evaluation reduced manual analysis time by 60%, producing structured outputs used by network optimization staff for data-driven decision-making. Core competencies include data analysis with Python, SQL, and Power BI, ensemble classification methods, structured documentation, and translating complex model outputs into clear stakeholder-facing recommendations. Available for full-time on-site placement; student visa sponsorship or OPT authorization would be required for US-based work.

CORE COMPETENCIES

Patient Eligibility Screening | Protocol Review | Clinical Database Navigation | Recruitment Strategy | Documentation & Compliance | Data Analysis | IRB Requirements | Clinical Trials Management

WORK EXPERIENCE

Orange Maroc

Jul 2024 - Aug 2024

Data Science Intern - Casablanca, Morocco

- Screened and classified **100,000+ fiber-optic network records** against defined performance criteria using Random Forest and K-Means models, mirroring protocol-based inclusion and exclusion eligibility workflows.
- Developed a clustering pipeline that mapped customer performance profiles to **5 commercial service tiers**, with output adopted directly by the network optimization team for operational decision-making.
- Reduced manual analysis and documentation time by **~60%** through automated feature engineering and model evaluation pipelines built in Python, Pandas, and Scikit-learn.
- Delivered stakeholder presentations translating model outputs into **maintenance recommendations** via Power BI dashboards, communicating complex data findings clearly to non-technical decision-makers.

PROJECTS

Aerial Cactus Detection - Endangered Species Classification

EURECOM Course Project · 2025 · 99.8% Accuracy

- Benchmarked CNN, DenseNet121, and hybrid CNN-Transformer architectures across **17,500+ drone images**, achieving 99.8% accuracy, F1 = 0.999, and ROC AUC = 1.0 on held-out test data.
- Conducted structured ablation studies comparing model families with consistent train/validation splits, producing documented performance tables used to support final architecture selection and reporting.

PyTorch · DenseNet121 · CNN · Scikit-learn · Kaggle

Twitter Sentiment Analysis - End-to-End NLP Pipeline

EURECOM Course Project · 2025 · Full Pipeline

- Built a complete NLP classification pipeline progressing from tokenization and TF-IDF through word2vec embeddings to **transformer fine-tuning**, with systematic hyperparameter optimization at each stage.
- Documented eligibility-style inclusion logic for text preprocessing decisions and produced structured evaluation reports comparing model performance across pipeline configurations for reproducible analysis.

Python · Hugging Face Transformers · Scikit-learn · Pandas · NumPy

EDUCATION

Engineering Degree in Data Science (Master-level) - EURECOM

Sep 2023 - Present

Relevant coursework: Machine Learning, Deep Learning, Statistics, Computer Vision, NLP, Cloud Computing, Web Applications, Image Security

CPGE - Mathematics & Physics - Ibn Timiya

2021 - 2023

SKILLS

Data Science & Analytics: Python | SQL | Pandas | NumPy | Power BI | Matplotlib | Seaborn

Machine Learning & AI: Scikit-learn | PyTorch | Hugging Face Transformers | Ensemble Methods | Clustering | Feature Engineering

Tools & Infrastructure: Git | Linux | PostgreSQL | Docker (basic) | REST APIs | Bash
