

AYMANE AIT DADS

Data Science Intern | Predictive Analytics · Health Data Insights · Machine Learning

Ayman.Ait-dads@eurecom.fr | +33 7 60 92 50 93 | linkedin.com/in/aymane-ait-dads | Sophia Antipolis, France

PROFESSIONAL SUMMARY

Data Science engineering student at EURECOM who built a supervised clustering pipeline on 100K+ real-world network records, reducing manual analysis time by 60% and delivering commercial-tier recommendations directly to business stakeholders. Ranked 1st in class on an AI image detection challenge (0.791 AUC) and placed top 10% in a \$106K+ Kaggle competition, demonstrating consistent ability to translate model outputs into measurable outcomes. Core competencies include Python, Pandas, Scikit-learn, SQL, Power BI, feature engineering, and ensemble methods aligned with data-driven preventive health analytics. Available for internship in Asia; no work authorization issues anticipated for Singapore-based roles.

CORE COMPETENCIES

Predictive Analytics | Health Data Insights | Feature Engineering | Data Storytelling | Machine Learning | Data Visualization | Clustering & Segmentation | Actionable Recommendations

WORK EXPERIENCE

Orange Maroc

Jul 2024 - Aug 2024

Data Science Intern - Casablanca, Morocco

- Developed a clustering pipeline mapping customer performance profiles to **5 commercial service tiers**, output adopted directly by the network optimization team for operational decisions.
- Built Random Forest and K-Means models on **100K+ fiber-optic network records** (upload speed, latency, jitter) to classify network quality across thousands of nodes.
- Reduced manual analysis time by **~60%** through automated feature engineering and model evaluation pipelines, freeing analysts for higher-value business tasks.
- Delivered stakeholder presentations translating model outputs into **Power BI dashboards** and maintenance recommendations, enabling executive-level decision-making from raw data.

PROJECTS

Aerial Cactus Detection - Endangered Species Classification

EURECOM · 2025 · 99.8% Accuracy

- Benchmarked CNN, DenseNet121, and hybrid CNN-Transformer architectures on **17,500+ drone images**, achieving 99.8% accuracy, F1 = 0.999, and ROC AUC = 1.0 for endangered species classification.
- Conducted systematic model comparison with quantitative evaluation metrics, producing actionable insights on architecture selection for high-stakes image classification tasks.

PyTorch · DenseNet121 · CNN · Scikit-learn · Kaggle

Twitter Sentiment Analysis - End-to-End NLP Pipeline

EURECOM · 2025 · Business NLP

- Built a full NLP pipeline progressing from tokenization and TF-IDF through word2vec embeddings to **transformer fine-tuning**, enabling automated sentiment classification at scale.
- Applied hyperparameter optimization across model stages and generated data-driven insights translating user sentiment signals into **business-interpretable outputs** aligned with health behavior analytics.

Python · Hugging Face Transformers · Scikit-learn · Pandas · word2vec

EDUCATION

Engineering Degree in Data Science (Master-level) - EURECOM

Sep 2023 - Present

Relevant coursework: Machine Learning, Deep Learning, Statistics, Computer Vision, NLP, Cloud Computing, Image Security, Web Applications

CPGE - Mathematics & Physics - Ibn Timiya

2021 - 2023

SKILLS

Data Science & Analytics: Python | SQL | Pandas | NumPy | Scikit-learn | Power BI | Feature Engineering

Machine Learning & AI: PyTorch | TensorFlow | Ensemble Methods | Clustering | Hugging Face Transformers | NLP

Tools & Visualization: Git | Linux | Matplotlib | Seaborn | Jupyter | REST APIs | Docker (basic)
