

AYMANE AIT DADS

Data & ML Intern | Data Analysis · Machine Learning · Business Intelligence

Aymane.Ait-dads@eurecom.fr | +33 7 60 92 50 93 | linkedin.com/in/aymane-ait-dads | Sophia Antipolis, France

PROFESSIONAL SUMMARY

Data Science engineering student at EURECOM with hands-on industry experience automating network quality analysis across 100K+ records, delivering Power BI dashboards and maintenance recommendations directly to stakeholders at Orange Maroc. Achieved 99.8% accuracy and $F1 = 0.999$ on a 17,500-image aerial classification task, demonstrating production-grade machine learning applied to real business classification problems. Core skills span Python, SQL, Pandas, Scikit-learn, feature engineering, ensemble methods, and data storytelling through visualization. Available for internship in Asia; no work authorization constraints apply.

CORE COMPETENCIES

Machine Learning | Data Analysis | Feature Engineering | Ensemble Methods | Business Intelligence | NLP Pipeline | Predictive Modelling | Data Storytelling

WORK EXPERIENCE

Orange Maroc

Jul 2024 - Aug 2024

Data Science Intern - Casablanca, Morocco

- Developed a clustering pipeline mapping customer performance profiles to **5 commercial service tiers**, outputs adopted directly by the network optimization team for capacity planning decisions.
- Built Random Forest and K-Means models on **100K+ fiber-optic network records** (upload speed, latency, jitter) to classify network quality across thousands of nodes with automated feature engineering.
- Reduced manual analysis time by **~60%** through end-to-end automation of feature engineering, model training, and evaluation workflows using Python, Scikit-learn, and Pandas.
- Delivered executive stakeholder presentations translating model outputs into actionable maintenance recommendations, supported by **Power BI dashboards** surfacing KPIs for non-technical decision-makers.

PROJECTS

Aerial Cactus Detection - Endangered Species Classification

EURECOM · 2025 · 99.8% Accuracy

- Benchmarked CNN, DenseNet121, and hybrid CNN-Transformer architectures on **17,500+ drone images**, achieving 99.8% accuracy, $F1 = 0.999$, and ROC AUC = 1.0 for binary species classification.
- Conducted systematic model comparison using ablation studies across architectures, applying ensemble methods and rigorous evaluation metrics to deliver a **production-ready classification pipeline**.

PyTorch · DenseNet121 · Scikit-learn · Pandas · Kaggle GPU

Twitter Sentiment Analysis - End-to-End NLP Pipeline

EURECOM · 2025 · Full NLP Stack

- Built an end-to-end NLP pipeline progressing from tokenization and TF-IDF through word2vec embeddings to **transformer fine-tuning**, benchmarking each stage for sentiment classification accuracy.
- Applied hyperparameter optimization across model variants to maximize predictive performance, demonstrating data storytelling by mapping **sentiment signals to actionable business insights** for eCommerce-style text data.

Python · Hugging Face Transformers · Scikit-learn · Pandas · NumPy

EDUCATION

Engineering Degree in Data Science (Master-level) - EURECOM

Sep 2023 - Present

Relevant coursework: Machine Learning, Deep Learning, Statistics, Computer Vision, NLP, Cloud Computing, Image Security, Web Applications

CPGE - Mathematics & Physics - Ibn Timiya

2021 - 2023

SKILLS

Data Science & Analytics: Python | SQL | Pandas | NumPy | Power BI | Matplotlib | Seaborn

Machine Learning & NLP: Scikit-learn | PyTorch | Hugging Face Transformers | TF-IDF | Sentiment Analysis | Ensemble Methods | Feature Engineering

MLOps & Infrastructure: Git | Linux | Docker (basic) | PostgreSQL | Supabase | REST APIs | Kaggle GPU
