

AYMANE AIT DADS

Data Science / AI & Analytics Intern | Predictive Modeling · Data Analysis · Machine Learning

Ayman.Ait-dads@eurecom.fr | +33 7 60 92 50 93 | linkedin.com/in/aymane-ait-dads | Sophia Antipolis, France

PROFESSIONAL SUMMARY

Built and deployed Random Forest and K-Means clustering models on 100,000+ fiber-optic network records at Orange Maroc, mapping customer performance profiles to 5 commercial service tiers directly used by the network optimization team. Ranked 1st in EURECOM class on an AI-generated image detection benchmark (0.791 AUC) and achieved top 10% on a \$106K+ Kaggle competition, demonstrating consistent high-performance data science delivery. Core competencies include Python, SQL, Pandas, Power BI, machine learning, deep learning, feature engineering, and translating analytical outputs into actionable business recommendations. Available for a Summer 2025 internship; currently based in France and open to USA/Canada placement subject to visa sponsorship.

CORE COMPETENCIES

Predictive Modeling | Data Analysis | Machine Learning | Data Visualization | Feature Engineering | Statistical Analysis | Natural Language Processing | Deep Learning

WORK EXPERIENCE

Orange Maroc

Jul 2024 - Aug 2024

Data Science Intern - Casablanca, Morocco

- Developed a clustering pipeline combining Random Forest classification and K-Means segmentation on **100,000+ fiber-optic network records** to map customer performance profiles to 5 commercial service tiers adopted by the network optimization team.
- Automated feature engineering and model evaluation workflows, reducing manual analysis time by **~60%** and accelerating data-driven decision cycles for network maintenance planning.
- Designed and delivered **Power BI dashboards** translating model outputs - upload speed, latency, and jitter metrics - into prioritized maintenance recommendations presented to business stakeholders.
- Performed end-to-end exploratory data analysis and model evaluation across thousands of network nodes, applying Scikit-learn, Pandas, and Python to produce **actionable insights** for commercial and technical teams.

PROJECTS

Aerial Cactus Detection - Endangered Species Classification

EURECOM Computer Vision · 2025 · 99.8% Accuracy

- Benchmarked CNN, DenseNet121, and hybrid CNN-Transformer architectures on **17,500+ drone images**, achieving 99.8% accuracy, F1 = 0.999, and ROC AUC = 1.0 for endangered cactus species classification.
- Conducted systematic ablation studies comparing model families on aerial imagery, delivering data-driven architecture selection recommendations supported by full evaluation metrics.

PyTorch · DenseNet121 · CNN · Scikit-learn · Kaggle GPU

Twitter Sentiment Analysis - End-to-End NLP Pipeline

EURECOM NLP · 2025 · Full Pipeline

- Built a complete NLP classification pipeline progressing from tokenization and TF-IDF through Word2Vec embeddings to **transformer fine-tuning**, delivering sentiment analysis outputs suitable for business intelligence applications.
- Applied hyperparameter optimization across model stages, using statistical analysis to identify performance drivers and translate text data into **actionable sentiment insights** aligned with downstream business reporting needs.

Python · Hugging Face Transformers · Scikit-learn · Pandas · Word2Vec

EDUCATION

Engineering Degree in Data Science (Master-level) - EURECOM

Sep 2023 - Present

Relevant coursework: Machine Learning, Deep Learning, Statistics, Computer Vision, NLP, Cloud Computing, Image Security, Web Applications

CPGE - Mathematics & Physics - Ibn Timiya

2021 - 2023

SKILLS

Data Science & Analytics: Python | SQL | Pandas | NumPy | Power BI | Matplotlib | Seaborn | Feature Engineering

Machine Learning & Deep Learning: Scikit-learn | PyTorch | TensorFlow | Hugging Face Transformers | Ensemble Methods | Clustering | NLP

Tools & Infrastructure: Git | Linux | PostgreSQL | Docker (basic) | Kaggle GPU | FP16 Mixed Precision | REST APIs
